
GiliSoft Slideshow Maker Crack X64

Slideshow Maker is a software program that was designed to help users create slideshows. It has a user-friendly interface with straightforward settings which let you choose from a built-in list of transitions, set the duration and make a brief description for every image. The program is accessible via a menu bar or a right click on a selected photo or group of pictures. Besides, you are offered to add a title, choose from a

predefined list of music, and set the transition for every slide. The slider can be moved forward and backward via a play/pause control and the auto action is set to loop through all your pictures with no gap in-between. You can also rotate them and apply the distortion, brightness or sharpening effects. From the settings panel, you can resize the pictures and set the transition duration. Using the command bar, you can change the slideshow to play normal or reverse and choose

the picture format (JPG, PNG, BMP, ICO) and bit rate. You can create slideshows from your images, or use your webcam as a video source. In terms of playback you can choose playback speed, loop or mute audio. You can even customize the slideshow image or picture header and predefined music, or use the built-in audio tracks, stored in a list. GiliSoft Photo Slideshow Creator

Description: Photo Slideshow Creator is a feature-rich and easy-to-use software tool for creating

and editing HD images into wonderful slideshows. This free application is equipped with an intuitive interface, a built-in photo browser and slideshow maker. The easy-to-use interface lets you apply one or more effects to your images, change their brightness, contrast and color saturation, combine them with the transition effects, adjust the transitions themselves or pick the transition duration. As you add more pictures to the slideshow, they will automatically be arranged in rows

or columns depending on the layout option you have selected. If you wish to change any of the photos, you have to go to the picture list where you can alter the images or delete them. In the slideshow settings panel, you can create custom properties for every slide. In this way, you can add a title and description, set photo rotation angle, playback speed, audio mute, and even insert your customized background and music. GiliSoft Photo SlideShow Creator Plus Description: Photo

SlideShow Creator Plus is a feature-rich and easy-to-use software tool for creating and editing HD

What's New in the?

When talking about video
slideshow creation softwares, this
little friend certainly does not lack
competition. There are many
similar tools available on the
market, including Slideshow
Studio Pro, Veoh Slideshow
Studio Pro, Movie Maker Video
Editor, and also pretty much

several freeware. The very first thing you will notice about this application is its friendly nature, since it is completely free. The main interface is clean and very easy to operate. Although the program is lacking some basic features you can easily live with it. The user can add music (MP3) to the slideshow, record it, change playback speed, change transition effects, fade in and out, as well as modify the overall project layout. Slideshow Maker has a number of innovative features that will surely

appeal to the masses. This is a software that allows the user to add background music to the project. It is also possible to apply three transition effects: fade, zoom and rotate. You can also create a virtual screen that will display different photos. The slideshow to be created can be managed using categories. These categories can be organized by name, time, image size, number of photographs or by the index number. The user can combine these categories to build a

slideshow which will appear like a slide show. The program can even give the slideshow the appearance of a DVD. The slideshow software is fully capable of handling JPEG, PNG, TIFF, BMP, AVI, WMV, MPEG1/2/4, MOV, MP4 and 3GP video. The ease of this slideshow software leaves no room for doubt that it is one of the best pieces of software for slideshow creation.
