AutoClipX Free

AutoClipX Crack [Mac/Win]

Transfer everything from one place to another, including pictures, music and movies, directly from the Clipboard. Clip Man automatically maintains a clean history of your transfers and when you paste, auto-copies only the actual content you've transferred. Select clips from one or more sources. A popup window shows a list of clips for easy selection, including the clip time, the files that were transferred, and any tags for metadata. Paste (make a copy) items to anywhere in a document. Copy items to the Clipboard. Select a set of items (text, pictures, music, etc.) to copy from one source to another. Delete or duplicate items. Switch between Windows with a hotkey. Modify text displayed on screen. Save logs of your activity. Clear formatting from selected text. Optional: take a snapshot of the source and destination window. Note: Requires PCSpeaker and ClipboardNotification. Software for multi-user support is no longer just a very important feature of a security application, but it has become a major factor for most users. Nowadays, business establishments need to not only protect their own data, but also data of their employees, clients, partners or business partners. Degaon provides an innovative solution to this issue, and it is an application intended to keep your data private and protected from unauthorized access by intruders. Kaspersky Internet Security 2011 is an outstanding product that provides integrated antivirus and antispyware solutions that really offer high security levels. Along with Internet Security it comes with Antivirus, Firewall, system control

AutoClipX Free [Updated-2022]

AutoClipX is an application designed to simplify text copying and pasting operations in almost any program. Main features: 1) Almost any text in any program can be copied and pasted by double clicking it with the selected cursor. 2) The auto-cleaning feature is quite useful and it cleans everything except for HTML tags, spaces, URLs, non-word characters, expressions and line breaks. 3) Some text can be selected for auto-cleaning by clicking on it, pressing SHIFT and pressing the Copy option key. 4) The hotkey feature allows you to define key combinations that will work as you select different blocks of text and the settings you made there will be used to execute the selected action. 5) The user interface of AutoClipX is quite simple, so it is quite easy to handle, but the configuration settings are divided in tabs for each of the supported functions. Key Features: 1) Allows to edit the hotkeys configured to work with any of the tasks listed above. 2) Can configure the copy cursor options. 3) Can configure the mouse buttons that will work with each task. 4) Can configure the type of text to copy. 5) Can configure the clipboard options. 6) Manages the text to be copied and pasted, filtering out the unnecessary parts. 7) Provides the option of blocking the selected text from being removed when the copy function is activated. 8) Allows to set the copying and pasting actions to be executed in specific programs and not in all of them. 9) Also provides the option of having a non-blocking version of the actions. 10) Can set not only one but many actions to be executed by the copy and paste actions. 11) Can define whether the clipboard manager should be opened or closed when the actions are being executed. 12) Has the ability of defining hotkeys for window switching. 13) The auto-saving function is useful when the clipboard manager will be opened. 14) Can have a tray tip as a notification about the paste or copy functions. 15) The hotkeys for switching between windows can be configured as you prefer. 16) The hotkeys can be used not only to swap between windows but to open those windows as well. 17) Can also use the hotkeys to execute the window-switching function from a different program. 18) The hotkeys can also be used to close and minimize/max bcb57fa61b

AutoClipX X64

What's New In?
