I am using core plot for that. I have added core plot in my application and I am able to see my graphs in emulator but when I am deploying it on to my ipad I can't see my graphs. Please suggest me some solution to overcome this problem. A: This issue could be caused by the fact that one of your app's build settings include CorePlot in the list of libraries it links against. When the code is delivered to the device the build settings will be built again and this time your code will not link CorePlot any more. News List MIAMI (CBS4) - A Miami Park man who was arrested in a July 13 homicide has now been charged with
