Âš..A Model for evaluating infectious disease biology in a field laboratory. To aid in the training of new field ecologists, the Texas A&M College of Veterinary Medicine and Biomedical Sciences developed the Field Laboratory Biology Course to train veterinarians to conduct laboratory-based research and complete and publish field research papers. This training course met the need for enhanced veterinary scientific skills at the University of Texas Southwestern Medical School. A program evaluation plan, using a collaborative evaluation model, was developed and implemented. Course evaluation surveys, including course evaluations and interviews, and on-site visits were used to evaluate the final course, a direct field laboratory. A 9-year evaluation period, commencing in October 1999 and ending in September 2008, tracked productivity and publications, faculty and staff satisfaction 0cc13bf012

Main menu Post navigation ...it doesn't get any better.. Summer's here. That means it's the final three months of the dry spell for me. I'm sure that applies to everyone, but for me it's even more true, given that I've never had my period for more than three months at a time. I don't use the word "hormonal" to describe my condition, but maybe that's because I didn't have a name for it until this year. All I knew was that I
