When they launched, I was extremely excited to use them. We were originally a custom builds shop (mechanical, metal, etc), but my wife wanted to blog. So we built a blogging site for her, and got into what we call "live" blogging. She started writing about things that we do and our travels. So our "contact us" page is a forum for "Live" blogging. We've done it for almost a year. We were getting about 25-30 inquiries a day, and about 5-6 interviews. Posterous just released a new API, and we've decided to totally rewrite everything. We're going to delete our forum, and then have a new one. We've added a bunch of new features. Our plan is to get back to the article format, as well as the blog. We'll have the same information, but add pictures and links and such. We've got a new design up on our site. We're definitely getting a lot of bff6bb2d33

WE'RE GEARING UP. As you have noticed, a skill evolution system is currently being implemented. In light of this, we are planning to rebalance the power of the Expert, Master, and Ascended classes. • New Main Character Class: Mage

Upon reaching Lv.90, you can upgrade your Tarnished to the Ascended Class (Lv.100), and receive 1 skill point for every 10,000 gold pieces spent. If your unlocked skill is higher than the current Ascended skill point requirement, you will be given access to unlock the Ascended skill that you need. If all Ascended skills are unlocked, the Ascended skill will be added to your character.

As a mage, you can use fire magic that is spell-like, mystic magic that is melee/casting melee, and royal magic that is a combination of fire and mystic. You can cast magic that increases your attributes, and can enhance your attributes to an astonishing degree.
